WORK EXPERIENCE

Corpjack Technologies Pvt Ltd

Full Stack Developer & UI/UX Designer

Jun 2025 – Present

India

- Designed, developed, and deployed responsive full-stack web applications using ReactJS, Laravel, PHP, JavaScript, MySQL, and MongoDB, improving application scalability and performance.
- Created user-centric UI/UX designs, wireframes, and prototypes using Figma and Tailwind CSS, enhancing customer engagement and usability.
- Collaborated with cross-functional teams to integrate frontend, backend, APIs, and databases for seamless project delivery.
- Managed complete SDLC processes including planning, development, testing, debugging, deployment, and optimization.
- Improved website speed, SEO, and cross-browser compatibility to increase user retention and operational efficiency.

EDUCATION

Dronacharya College of Engineering

Bachelor of Technology in Computer Science Engineering

2022 – Present

GPA: 7.7

CBSE Board

Class 12th

2022

India

TECHNICAL SKILLS

Programming Languages: HTML5, CSS3, JavaScript, PHP, SQL, C++, Dart

Frameworks/Libraries: ReactJS, NodeJS, ExpressJS, Laravel, Tailwind CSS, Bootstrap, Streamlit, Flutter

Databases: MongoDB, MySQL, Firebase

Tools/Platforms: Git, GitHub, VS Code, Postman, Figma, Google Colab, REST APIs

Core Skills: Full Stack Development, UI/UX Design, API Integration, Responsive Design, SEO Optimization, Agile Development, Software Testing

PROJECTS

Vidura: AI-Powered Recruitment Assistant

- Developed an AI-powered recruitment automation platform using Streamlit, GPT-4o, LangChain, FAISS, and RAG technologies.
- Built resume parsing, candidate screening, and job-role matching systems to improve recruitment efficiency.
- Implemented conversational AI tools for recruiters to accelerate candidate evaluation and hiring decisions.
- Automated recruitment workflows, recommendations, and personalized hiring insights.

Wheelyfix - Automotive Service Platform

- Developed a full-stack automotive service booking platform using ReactJS, NodeJS, ExpressJS, and MongoDB.
- Designed responsive booking systems, customer dashboards, and service workflows for operational efficiency.
- Integrated customer management, service tracking, and backend systems for seamless performance.
- Enhanced SEO, mobile responsiveness, and performance optimization.
